

FAVORITE WORDPRESS PLUGINS

WHAT WE USE ON ALL SITES

[Admin Menu Tree Page View](#) - free

Offers drop-down menu of pages - shaves off lots of clicks while building sites!

[Akismet](#) - free or cheap

Spam blocker - must have if website allows comments. Pay scale is on the honor system... so can get for free.

[Bulk Page Creator](#)

Create an entire sitemap worth of pages with one click.

**can delete after use*

[Gravity Forms](#) - \$259/year for > 3 sites

The best form-builder for wordpress hands down. Tons of add-ons and integrations as well. Worth every penny and then some.

[Surbma - Divi & Gravity Forms](#) - free

Makes your Gravity Forms buttons look like your Divi ones!

[Wordfence](#) - free

Basic security features to protect websites

[Yoast SEO](#) - free

Simple SEO setup for each page.

RECOMMENDED WHEN NEEDED

[Bloom](#) - free with Elegant Themes

Email opt-in plugin for sites that want to grow a mailing list.

[Divi Booster](#) - \$19

Some add-on features for Divi like including other soc med icons beyond fb and twitter.

[Divi Extended Column Layouts](#) - free

Allows for 5,6,7,8 column layouts (instead of just 4)

[Monarch](#) - free with Elegant Themes

Social media share/follow plugin.

[Uber Login Logo](#) - free

Changes the logo on the admin login from wordpress to your client's. (An easy customized look for when your client will be doing updates themselves.)

[Woocommerce](#) - free

Must have if ecommerce involved.
